

THE BIRMINGHAM CIVIC SOCIETY

Become a corporate member of The Birmingham Civic Society

The Society has, since its foundation in 1918, championed civic pride and worked to make Birmingham a better place for its citizens, visitors and workforce. Our strapline - concerned with Birmingham's future, mindful of its past - is a focus for everything that we do and have done over the last 97 years:

Influencing the future of the city's physical environment by promoting the highest standards of planning, architecture and art in the public realm.

Promoting the concept of active citizenship amongst the city's children and young people through our annual Next Generation Awards programme.

Recognising and celebrating Birmingham's heritage via our Blue Plaques and History Plates.

Protecting and enhancing the environment by delivering Birmingham Trees for Life www.btfl.org.uk in partnership with businesses, local communities and the City Council. In January we planted our 40,000th tree.

- We work hard to engender civic pride across the whole of Birmingham – the city centre, inner city, neighbourhoods and the suburbs beyond.
- We recognise that corporate social responsibility and talent development for younger members of staff are an important part of corporate life and are happy to work in bespoke ways to help them get the most from your membership.
- The Society comprises nearly 100 corporate members and many more prominent individual members. By becoming a corporate member you will demonstrate your firm's support for the important work that the Society is doing to make a difference across the city.
- As a corporate member there are direct benefits too – you will have unique access to events at which the city's leaders speak in private, including our high profile Leaders' Breakfast and annual Business Reception.
- Annual corporate membership is £200. This entitles you to five individual membership cards to distribute amongst your employees. Subscription renewal is on 1st July.
- We would love to welcome you as a member.
